NELSON-DUNN TECHNOLOGIES

NELSON DUNN

ISO certified Quality Management System

PRODUCTS OFFERED:

EATON

Aeroquip: Rubber, Teflon Hose, Fittings, Adapters, and Quick Disconnects for Hydraulic, Engine, Refrigerant Applications. EPDM hose (Skydrol). Also Offering Hansen.

Synflex: Thermoplastic Hose for CNG (on vehicle & dispensing), Hydraulic & More. Fittings & Adapters. Assemblies Fabricated by NELSON DUNN.

Boston: Industrial Hose & Tubing for Chemical, Fuel, Oil Transfer, Steam, Suction Discharge & More.

Hydro-Line: Industrial Single & Double Acting Hydraulic and Pneumatic Cylinders, NFPA Tie Rod, Industrial Welded, and Custom Capabilities.

**Schroeder
INDUSTRIES**

Hydraulic, Lube & Fuel Filtration. Suction, Low, Medium & High Pressure Hydraulic Filters, Filtration Carts, 3 μ through 10 μ Media.

Stucchi[®]

Fluid Quick Disconnects, Maximum Working Pressures up to 10,000 PSIG, Materials: Carbon Steel, Stainless Steel & Brass.

NOSHOK

Pressure Gauges, Dry & Liquid Filled To 20,000 PSIG. Brass, Stainless Steel, ABS. Threaded & Panel Mounts.

PENFLEX

Flexible Metal Hose Capable Of Conveying Media Ranging From - 300° F to 1200° . Ideal for LNG applications. Metal Hose Expansion Joints.

BRENNAN Industries

Tube Fittings & Adapters, SAE, DIN, ISO Standards. Materials: Carbon Steel, Stainless Steel & Brass.

Hydraulic Accessories: Inline Flow Control, Ball & Bleed Valves, Check Valves, Gauge Snubbers, Pressure Switches & Pressure Transducers.

Drilling Equipment Hose: Drilling hose for a variety of applications including: mud hose, cementing hose, rotary hose, hydraulic hose, and more. Corresponding fittings & flanges.

Assembly and Fabrication: **Custom and Standard Hose Assemblies by Nelson Dunn**

OVER 55 YEARS OF DISTRIBUTION AND FABRICATION

CNG/LNG Product Offerings:

Compressed Natural Gas (CNG):

- TUV certified CNG hose assembly shop
- Eaton Synflex[®] 35NG hose available for high pressure applications (dispensing, transfer)
 - Black Polyurethane Cover for industry leading UV resistance
 - Available in single and twin-line options (where vent line is necessary)
 - ANSI/CSA NGV4.2-2014 (Class A, D) and NGV3.1-2014 (Class B) listing
 - Conforms to NFPA 52
- Eaton NG-TW Series hose available for low pressure applications (on-vehicle)
 - Corrosion resistant stainless steel braid
 - Fire retardant & abrasion resistant polyester outer cover
 - ANSI/CSA NGV 3.1 (Class C) listing
 - Conforms to NFPA 52

EATON

Liquefied Natural Gas (LNG):

- Flexible Metal Hose capable of Conveying Media Ranging from -300° to 1200°F
- Ideal for LNG applications; made to order lengths and ID's
- Metal Hose Expansion Joints
- PTFE Hose with Stainless Braid recommended for cylinder replacement applications
- Full armor guard for protection (depending on application)
- Complete line of end fittings:
 - Stainless steel: flange, male pipe, SAE, male & female JIC
 - Brass: SAE, male & female JIC

PENFLEX

CNG On-Vehicle & Dispensing Hose

Cryogenic Metal Hose (LNG)

***The most reliable, durable, cost-effective
Fluid Interconnect solutions on the market. Period.***
